Ships Point Water Distribution Upgrade – Phase 3

Notice to Residents:

Wacor Holdings Ltd. is preparing to upgrade the water system in your neighborhood along Ships Point Road per the drawing below. This will take place from approximately May 4, 2020 to September 30, 2020.

Intermittent, temporary road closures will occur in and around the work zone and access to properties may be delayed or available by alternate routes, as directed. Your cooperation with traffic control personnel is crucial to the safety of the construction crews, you, your family and fellow motorists.

There is a possibility that water services may be disrupted with a temporary water shut-off. Wacor will endeavor to provide as much notice as possible of this disruption to service.

This project will involve the use of heavy equipment and large gravel trucks. For the safety of children, please advise them of the dangers of heavy equipment, and not to play on or near the job site and stored materials.

Wacor Holdings Ltd. will strive to move traffic as efficiently as possible during this project and appreciates your patience with the inconvenience caused by construction activities. We thank residents of Ships Point in advance for your understanding and cooperation. Construction related comments or concerns should be directed to Lester Hill at (250) 334-6825, Superintendent, Wacor Holdings Ltd.
